

 *The Red Flash*

February 2006

Dear Customers,

Time moves on and changes all things,
... and 2006 sees Hermann Medizintechnik moving with
the times....

We recently celebrated the completion of our new entrance area after a construction phase that lasted three months.

We felt the need to redesign our reception area, and the opportunity allowed us to think in different dimensions and explore refreshing new ideas.

The principles of feng shui permeated our concept, with the elements of wood, fire, earth, metal and water being incorporated in the new building.

 *The Red Flash*

Water is the source of all life, and it was natural that it should play a central role in our vision. This vision became reality in the form of a waterfall feature, an artistic creation that both impresses and fascinates the observer.

We are looking forward to holding many interesting, stimulating and successful meetings in our new premises and - hopefully - we will also have the opportunity to welcome you personally in the near future!

 *The Red Flash*

Our celebration was a pleasant occasion held during an exhibition of the works of a local artist, and we have enclosed a few photographic impressions to give you a taste of the atmosphere:

Very best regards.

Your Hermann Team!
